

IFR Groundschool

Ground Instruction for Pilots

**Starts August 7th
Register soon!**

From no IFR experience to an understanding of the entire IFR system. Focuses on modern IFR technology (GPS rather than NDBs) and covers all aspects of IFR flying, including flight in uncontrolled airspace and differences between IFR in Canada and the USA.

Introduction to IFR Concepts

- Introduction to IFR
- A complete flight

Aviation Background

- Meteorology for IFR Flight
- Human Factors
- Navigation Instruments

Segments of the IFR Flight

- Flight Planning
- Departure
- En Route
- Arrival
- Approaches

Review

- Complete Flight Revisited

This course is delivered over the Internet in a series of 18 interactive sessions from 19:30 to 21:00 EST (Monday & Thursday).

Groundschool in the comfort of your home!
27 hours total for \$325.
(\$295 for RFC members)
